MEXICANS CONTINUE DEVILTRY; AMERICAN SOLDIERS PURSUING.

WASHINGTON, Aug. 21.—Mexican border raids and depredations by bandits directly across the border, evidence from official sources showed, will in the future bring trouble upon the United States.

The present punitive expedition, led by Major General Joseph T. Dickman, commander of the Southern department, it was learned, constitutes the first working out of the new policy, which one official characterized as "handling the border nuisance without gloves."

The border guard, it was said, was equipped admirably for such work with swift, moving cavalry, machine gun sections and airplanes stationed at detachment points along the Rio Grande.

Interest in the search of the Eighth Cavalry which crossed the border Tuesday for the bandits who held Lieutenants H. G. Peterson and Paul N. Davis, for ransom, continued intense at the War Department.

Possibility that the American soldiers already have had the first skirmish with the bandits was indicated Tuesday night when two aviators returned to the American side with bullet holes in the plane of their machine and a report that they had been attacked by three Mexicans, one of whom they believed they killed with machine bullets. Another was believed to have been wounded and the third put to flight.

WASHINGTON, Aug. 21.—Mexican Ambassador Bonillas has been urged by the Mexican Consul at Presidio, Texas, to obtain from the War Department an order for withdrawal of the American forces now in Mexico. The Consul's telegram, made public at the Embassy said that since Mexican Federal troops were in pursuit of the bandits which held two American aviators for ransom, withdrawal of the American troops would "avoid difficulties."

MARFA, TEXAS, August 21.—Ten American observation airplanes with machine guns mounted are leading the four troops of the Eighth Cavalry across the border from Candelaria, Texas, in pursuit of the Mexican bandits who captured Lieutenant Peterson and Davis, army aviators, and held them for ransom.

Four planes went with the cavalry when the troops crossed the line, four more were sent from El Paso and two from McAllen.

WASHINGTON, Aug. 21.—Another case of the kidnaping of an American citizen by Mexican bandits who demanded ransom was announced by the State Department. He was a Porto Rican doctor, who was taken prisoner July 22. The ransom was to have been paid August 15, but the department has not been advised whether he had been released.

SAN FRANCISCO, CALIF., Aug. 21.—Mrs. Adel S. De Niemeyer, who arrived on the steamer Newport, declared that her husband, who she said was a Mexican mining engineer, and several other engineers were killed by Mexican bandits on a train near Salina Cruz.

Mrs. De Niemeyer, who said she was an American, declared the bandits stripped the women and children of money and jewels before killing the men.

Captain C. J. Holland, master of the Newport, said Mrs. De Niemeyer's story was confirmed by the agent of the Pacific Mail Steamship Company at Salina Cruz. Captain Holland said he did not know the number of men killed.

MARFA, Tex., Aug. 21.—Captain Leonard Matlack, of the 8th Cavalry, has captured two Mexicans believed to have been implicated in the capture of aviators Peterson and Davis. This information was brought to the border by an American cavalry sergeant and a guard of enlisted men who returned to the Rio Grande tonight.

SHIPMENT OF NEW SCHOOL BOOKS DELAYED.

Dealers have been advised that school books cannot be shipped before Sept. 1 to 10, on account of strikes, railroad embargoes and other delays. The central supply houses have orders ahead enough to keep them busy for 30 days after the books arrive. There is, therefore, little prospect of early delivery.

AUTO ACCIDENT.

When the emergency brake refused to work, the automobile which Mr. C. T. Franklin, of Lexington, was driving out East Main street, in this city, Wednesday, went over a nine-foot embankment, colliding with a telephone pole and was considerably damaged. Mr. Franklin escaped injury. The car was sent to a local garage for repairs.

DEMOCRATIC MASS MEETING AT COURT HOUSE AUGUST 30.

In accordance with an order from the Democratic State Central Committee the Democrats of Bourbon county will assemble in mass meeting at the court house in this city, at 2:30 o'clock, Saturday, August 30. The meeting will be held for the purpose of selecting delegates and alternates to attend the Democratic State Convention, to be held in Louisville, on Thursday, Sept. 4, for the purpose of adopting a platform on which the Democratic party shall go to the people of the State in the fall campaign, 1919, for State offices. The meeting is authorized by Mr. W. D. McIntyre, County Chairman. All Democrats are urged to be present.

Hon. Thos. S. Rhea has been unanimously chosen to manage the campaign, with authority to select any committees that he may deem necessary to help him. The Republicans have been holding up the starting of their campaign until after this convention, which we predict will give them enough to talk about for the coming months before the election.

SUSTAINS PAINFUL INJURY.

As the result of an accident which occurred in the shops of the Templin Lumber Co., in this city, yesterday morning, Mr. Grant Owsley, proprietor of the Owsley restaurant at the corner of Seventh and Main streets, sustained a serious injury to his face, which may confine him to his room for several days.

Mr. Owsley was having some blocks sawed to go underneath a refrigerator at his place of business, and was assisting Mr. Mike Boyle, carpenter, in operating the cut-off saw. In some way the plank he was holding slipped and struck the rapidly revolving saw. The jagged edge of the board was thrown violently into his face, cutting a deep gash, and throwing him to the floor. Mr. Boyle summoned medical assistance and Mr. Owsley's injuries were given attention. It required fourteen stitches to close the wound.

NEW DAM RAPIDLY APPROACHING COMPLETION.

According to Mr. Peter Humphries, foreman of the construction work in progress on the new dam at the Paris Milling Co.'s plant, the work will be practically completed in less than ten days, provided there are no setbacks in the way of adverse weather.

The workmen have been working part of the time in three shifts and the construction has progressed so far that some of the "forms" that enclose the concrete have been removed. Two sections have already been completed, and the third is well under way. When the fourth section is completed and the dam is all in readiness the big gates of the storage dam of the Paris Water Co., at Spears Mill will be opened and a flood of water will be let down. This will be a test of the staying powers of the new structure, which bids fair to rank as one of the best of its kind in the State.

PARIS NEGRO. ALLEGED DESERTER UNDER ARREST.

Harry Barton, aged thirty-two, a Paris negro, went into the army to "do his bit" against Germany in the late world-war. He hoped to go to France and proudly marched away to join the colors. But he didn't get far. His trip ended at Camp Knox, and the signing of the armistice found him in Company 8 of the Development Battalion. There he remained until December 23, when, it is alleged, he took "French leave." He did not return, and the authorities of Paris and Lexington were notified to be on the lookout for him.

At six o'clock Wednesday morning Barton was located in a house on North Upper street, in Lexington, and placed under arrest on a charge of deserting from the United States army. The commanding officer at Camp Knox was notified and a guard was sent to Lexington to return Barton to the camp for trial.

NEW KENTUCKY CONGRESSMAN TAKES SEAT IN HOUSE.

With very Republican standing to welcome him, Captain King Swope, of Danville, Ky., Tuesday, was sworn in as a member of the House from the Eighth Kentucky District. Standing in the center aisle Congressman John W. Langley, of Keene, said:

"To me has been given the pleasant duty of announcing to the House Captain King Swope, member-elect from the Eighth District of my State, to be the successor of our late colleague, Harvey Helm. His credentials have not been received yet, as under the State law the Board of Election Commissioners did not meet in time. There is no doubt of his election, however, as he received a majority of 1,750."

At this there was a roar from the Republican side of the House, and accompanied by Langley, J. M. Robinson and S. F. Ogden, he walked to the desk and took the oath. As a token of courtesy J. Campbell Cantrill, W. J. Fields, A. W. Barkley and David H. Kinchloe, Democratic members, accompanied him down the aisle.

In the gallery were Mr. S. Swope, Mr. and Mrs. James H. Swope, of Danville, his parents, and his uncle, William Swope, of Lexington, Ky.

The new member will be appointed on the Committee on Immigration and the Committee on Patents.

REPEAL OF DAYLIGHT SAVING LAW ACCOMPLISHED.

Repeal of the daylight saving act was accomplished Wednesday, the Senate voting to sustain the House in passing the repeal measure over President Wilson's veto. The vote was 57 to 19.

The repeal of the law, which now takes its place among the very few which have been passed over a Presidential veto, becomes effective after the clocks are turned back to normal in October. It will go down in legislative history as one of the very few measures which have twice been vetoed by a President and become a law after all by the vote of more than two-thirds in both Houses of Congress.

A. B. HANCOCK'S NOTED HORSE CELT, DIES SUDDENLY.

Word was received here Wednesday afternoon of the death of the noted thoroughbred sire Celt at the Ellerslie stud of A. B. Hancock, near Charlottesville, Va. Celt was by Commando—Maid of Erin, by Amphon, second dam Mavourneen, dam of Voter, by Barcaline, and he was one of the 3-year-olds of the famous Keene aggregation to win the Brooklyn Handicap.

After passing into the hands of Mr. Hancock, Celt was given every opportunity to make good in the stud and he was the sire of a great many winners, among the number being the noted long-distance mare Embroidery; Dunboyne, the Futurity winner of 1918; Cinderella, one of the present year's crack fillies during the early part of the spring campaign as well as a host of others that could be named. William Garth, whose place in Virginia adjoins Mr. Hancock's, said that the horse appeared to be in perfect health when he saw him last.

Some idea of the loss sustained by Mr. Hancock may be gleaned from the fact that at the present sale of the Ellerslie yearlings seventeen head by Celt sold for a total of \$105,300.

TWO IN ACCIDENTS

While coming from the postoffice Mrs. Mary A. Paton slipped and fell on the pavement, sustaining severe bruises on the arms, hips and shoulder. She was removed to her home, and is now considerably improved.

While feeding chickens near her home on the Jas. L. Dodge farm near Paris, Mrs. Frank Stoker stepped on a corn cob, which threw her to the ground. In the fall she sustained a broken ankle. There was no one at home at the time. Mrs. Stoker crawled from the barn to her home, and summoned Dr. Chas. G. Daugherty, who set the broken member.

KENTUCKY UNIT PRESENTS STATE WITH HISTORIC COLORS

The colors of the 515th Engineers, made up of Kentucky unit to go overseas, was presented to the State of Kentucky by Herman Holland, clerk in the insurance department, at Frankfort, who was a member of the unit. Holland made the presentation on behalf of his commanding officer, Major A. B. Bissack. The colors, which were accepted by Governor Black for the State, probably will go to the Kentucky Historical Society.

CONFERENCE OF RED CROSS WORKERS.

There will be a conference of all the Red Cross workers of the Bourbon County Chapter and Millersburg Chapter Monday and Tuesday, Aug. 25 and 26. Miss Virginia Wing, of the Bureau of Research and Education, Lake Division, Miss Lida Hafford, State Headquarters, Louisville, and Mr. W. C. Hunt, Field Worker in Kentucky, will be here to discuss with the local chapters the things which remain to be done in the work of the Home Service Department and the future of this work. The aim of the Red Cross in its peace time work has been briefly stated thus: "To face the needless waste of human life; to co-operate with and to lead every agency that looks toward cleanliness, sanitation, health and happiness." That surely is a mission to which the Red Cross can look with confidence. The Nursing Department, The Home Service Department and the Junior Red Cross have definitely outlined plans for carrying out these aims.

Every Red Cross member in the county wants to be informed on what the peace time work of the Red Cross is to be so we will know what we want Bourbon county to do. The meetings begin at 10 o'clock Monday in the court house. See to it that your precinct is represented at every meeting.

AUTO TOURISTS VISIT PARIS.

Nearly every day parties of automobile tourists visit Paris, coming from different parts of the country. Some of them remain quite a while, and others just take a look around the best town in the Bluegrass, and go on their way, doubtless sorry that their schedule will not permit them remaining longer.

THE NEWS man was holding up the side of a building in the vicinity of the court house Tuesday night when a big machine, occupied by a party of tourists, halted for a few moments to admire our handsome temple of justice. One of the party remarked: "We are from Canton, Ohio, making a tour of Kentucky. If Canton had such a handsome public building as you have here we could be proud of it. We heard a great deal of Paris, Ky., before we started on our trip, and what we have seen fully justifies the words of those who told us it is one of the prettiest towns in the State."

On account of the rough condition of the Dixie Highway between Lexington and Cincinnati, and the uncompleted portions in Rockcastle county, tourists are being routed through Falmouth and Paris, into Lexington, and by way of Harrodsburg, Bardstown, Cave City, Bowling Green and Nashville to the other branch of the Dixie Highway.

HISTORIC PRINTING PRESS SOLD TO PARIS JUNK MAN.

Editor Warren Fisher, of the Carlisle Mercury, announced that the old "Cincinnati Cylinder" hand press, which had been a fixture in the Mercury office since the year 1873, has been torn down and the parts sold for old iron to a junk dealer in Paris. The press has played a very important part in the newspaper circles in this section of the State. It was purchased by Scudder and Darnall, who were owners and publishers of The Mercury in 1873, from a firm in Lexington. The press was used for a number of years in the publication of the Apostolic Guide. Some of the citizens of Carlisle who are familiar with the history of local newspapers say that it was used in the publication of the first daily newspaper issued in Lexington. Some of the citizens have suggested that the press should be saved and used in Lexington to show the progress made in printing circles. The press brought a mere trifle as old iron.

HEAVY RAINS VISIT BOURBON

Heavy rains visited this section late Wednesday night and yesterday afternoon, adding great good to the rainfall of previous days. For a time yesterday afternoon an old-time storm seemed to be portending, but it passed off in a downpour of rain that brought relief to the crops and vegetation. Thunder and lightning added their bit to the play of the elements, but did no damage. The rains were a most welcome visitation.

OFFICIAL VOTE IN THE AUGUST PRIMARY ELECTION.

When United States Senator A. O. Stanley made the race for the Democratic nomination for Governor in 1915 he received 107,535 votes. In that election 206,371 votes were cast in the Democratic primary for candidates for Governor. Official tabulations of the results of the recent primary made by Rodman Keenon, chairman of the State Election Commission, show that 110,710 votes were cast in the last election for the Democratic candidates for Governor.

A comparison of the vote cast at the 1915 primary election with the 1919 vote shows that Stanley received 42,333 votes more than did Governor Black. In the 1915 election H. V. McChesney, who was defeated for the nomination by Stanley, received 69,722 votes, or 4,570 votes more than did Governor Black.

The official tabulations made by Keenon gives the votes as follows in the State races:

For Governor—Black, 64,753; Carroll, 43,703; Noel, 2,258.

For Lieutenant Governor—Shanks, 43,300; Oldham, 39,332.

For Secretary of State—Cohen, 47,275; Hager, 20,412; McQuery, 14,499.

For State Auditor—Boswell, 48,602; Brouse, 10,984; Rawlings, 12,391; Vance, 7,537.

For Clerk of the Court of Appeals—Goodman, 39,336; Steger, 22,057; O'Conner, 15,187.

For Superintendent of Public Instruction—Foster, 34,239; Eubank, 27,132; King, 15,037.

For Commissioner of Agriculture—Newman, 51,679; Cecil, 21,447.

For Attorney General—Daugherty, 30,529; Musick, 21,792; Baker, 14,660; Lisanby, 9,644.

For Attorney General (Republicans)—Dawson, 39,439; Jolly, 14,938.

Railroad Commissioner, First District—Burns, 10,927; Gordon, 9,151; Catlett, 3,188; Duff, 3,766.

Railroad Commissioner, Second District (Democrats)—Cooper, 4,803; Jesse, 583.

Railroad Commissioner, Third District—Kash, 12,941; Eversole, 1,248.

The pluralities of the winning candidates follow:

Black, 21,049; Shanks, 2,468; Cohen, 26,863; Bosworth, 36,211; Goodman, 36,211; Foster, 17,279; Newman, 7,107; Daugherty, 8,737

DO YOU STAND THE TEST?

The manufacturer of a certain food product advertises that his goods will stand the test of hot weather because they are made of the right material.

He means that his goods are as stable for use in hot weather as in more moderate temperatures—that hot weather does not affect them or break them down. If this were not true his product would not have as wide a sale because people do not buy products which cannot stand weather tests.

Do you slump in the summer or are you made of the right material which stands all the tests?

If you have quit saving because it is hot weather, you are not made of the right material.

War Savings and Thrift Stamps are available all the year around. If you have been buying them regardless of hot weather and vacation time, next year your vacation will be all the better because you'll have something substantial to enjoy it on.

SECRETARY BAKER DEFENDS NEED OF LARGE ARMY

WASHINGTON, August 21.—Secretary Baker defended before the Senate Subcommittee on Military Affairs his recommendation for an army of 576,000 men by saying that in view of the "disturbed conditions in the world" he did not wish the "responsibility" of asking for a small force.

Secretary Baker indicated several times that the bill as presented, including its provision for compulsory universal military training for nineteen-year-old youths, was that of military experts rather than his own, although it had his approval.

He said that his own "guess" was that an army of 576,000 was perhaps somewhat larger than necessary, but that he did not wish to take the responsibility of opposing the opinion of the country's greatest military men.

Regarding the provision for main-

tenance of three divisions in the insular possessions the Secretary admitted that the force appeared to him somewhat large and agreed to the suggestion of Senator Wadsworth of New York that native troops

might be used to advantage.

The Senator had remarked that at present it seemed that every Ameri-

cian soldier kept in the Philippines

was there somewhat in the nature of a "hostage of faith."

The Secretary also considered as worth while a suggestion that a part of the youth of the country might be given the opportunity for naval training, possibly as a substitute for the training he otherwise would receive in the army.

The interrogation of the Secretary offered the opportunity for obtaining his opinion on the proposed establishment of an air ministry. Senator New of Indiana presented arguments for the separation of the military and aeronautics, but Secretary Baker was frank in his declaration of opinion that it would make for inefficiency.

Difficulty would be experienced, Mr. Baker said, in maintaining the proper co-ordination under separate heads and if a more adequate air service is desired, he suggested, it would be more practicable to utilize the existing military organizations.

Another reason given by the Secretary for opposing a centralization of aviation was that it would tend to discourage competition in the development of aerial appliances. Aviation, he said, is yet so new that all the ingenuity and inventions that can be had are needed.

He also explained to the committee the difficulty an air ministry would have in handling its pilots when separately trained, indicating the necessity from the point of view of the military man of having the air men so drilled with the army man that there would be the least possible chance of failure when it came to co-ordination.

The testimony developed that the United States now has 10,718 airplanes, of which, however, only 3,282 are service planes. The major part of the present equipment is obsolete, but, it was asserted by the Secretary, the types are better than any in Europe.

A utilization of those types, coupled with the experience in production that have been had, would be believed, save much time if it should again become necessary to bring that branch of the service to a war basis.

The Secretary said that if the government wished to develop the air industry either for commerce or for war purposes the solution was simple—merely spend the money to buy more planes.

Some Paris People Have Learned That Neglect Is Dangerous.

The slightest symptom of kidney trouble is far too serious to be overlooked. It's the small, neglected troubles that so often lead to serious kidney ailments. That pain in the "small" of your back; that urinary irregularity; those headaches and dizzy spells; that weak, weary, worn-out feeling, may be nature's warning of kidney weakness. Why risk your life by neglecting these symptoms? Reach the cause of the trouble while there yet is time—begin treating your kidneys at once with a tried and proven kidney remedy. No need to experiment—Doan's Kidney Pills are used and recommended throughout the civilized world. Endorsed at home. Read Paris testimony.

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 476 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

FIRST STOCK OFFERING

In making our announcement to the public of our initial stock offering we believe that we are offering to the people of Kentucky and nearby States the greatest investment opportunity that has ever been given you by any new oil company. We believe this. Why?

First, because our company is under the direction and capable management of practical oil operators and successful business men.

Second, because the holdings of the Cosmos Oil and Refining Company are in proven fields. When we say proven oil fields we mean that other developments have shown fully that our holdings should produce and in paying quantities.

GUSHER TERRITORY

Kentucky has so far produced but few gushers. The best of which we believe the State has produced so far is Warren, Barren and Allen Counties, in Western Kentucky, and Lee, in Eastern Kentucky. That is why we have selected our Kentucky holdings in these counties because for this company we want and will have the best territory available.

We will start developing our holdings at once, for only by producing oil can we pay dividends, and right here we wish to say that if the Cosmos Oil and Refining Company is not paying the largest legitimate dividends of any new company of the State by January we will fall far short of our present anticipations.

REAL TEXAS GUSHERS

4,000 to 10,000-barrel wells! Sounds mighty big, doesn't it? Yes, and it sounded mighty good to us this week when we received a message from our Texas representative saying the wells to the northwest of our Texas lease had come in.

This well is known as the Dabney No. 1. Connected with this we know that a well only about 260 rods to the southeast was in at 9,000 barrels daily. This is what we want you to get into your mind and when you have, then you will be with us and for us.

We have selected the holdings upon which the Cosmos Oil and Refining Company is organized with the greatest and most critical care. It is our intention to eliminate in so far as we can all wildcat or uncertain features. It is our intention to give the public an honest, square deal and to make this the biggest and best independent oil company.

FIVE THOUSAND BARRELS PER DAY

That is what we expect by January 1 and our Texas representative is as confident that we will have it as if he could already see that liquid flow of gold going into the pipe line.

In our judgment there never was a company with brighter prospects. There never was a company that could offer you better stock on the ground floor or initial offer. This is your chance to get in where we believe you will reap a rich harvest on a small investment.

Act at once while you can secure stock at our opening offer of Fifty Cents. This stock is fully paid and nonassessable. Your purchase of stock gives you an interest in all the company now has or may hereafter acquire. Several times recently companies organized by good, strong, substantial business men and with good holdings have sold all the allotment so quickly that the public has been surprised that it failed to get the stock they applied for and it will be no surprise to us to see all the 250,000 shares at 50 cents taken in the next few days.

COMPETENCY AND INTEGRITY OF THE OFFICIAL BOARD

Mr. Paul Burlingame, of Louisville, Ky., president of the Cosmos Oil and Refining Company, is one of the best known men of Kentucky. He is president of the Board of Public Safety and has long been identified in public affairs. It is doubtful that there is a man in all Louisville better known in every county in Kentucky than Paul Burlingame. His reputation is clean and he consented to become president of this big company after careful investigation as to the proposed business and as to whom his associates were.

Mr. J. W. Calkins, of Winchester, Ky., and Prairie Depot, O., vice president of the Cosmos Oil and Refining Company, is one of the best known and esteemed oil operators of the State. Mr. Calkins is a man of many years experience in the oil producing business. He knows the oil business from the starting of a well until you have put the oil in the refinery. Such a man is a valuable asset to any company, and for his knowledge and ability Mr. Calkins has also been made a member of the Executive Board of the Cosmos Company. Mr. Calkins has extensive personal developments and interests, but he is for the Cosmos Oil and Refining Company above all others.

Mr. Joe T. Cresap, of Elizabethtown, Ky., secretary of the Cosmos Oil and Refining Company, is one of Hardin County's best and most favorably known business men. Mr. Cresap has been in active business in Elizabethtown for many years and it is doubtful that there is a man in Hardin County better known or more highly regarded than Joe Cresap. He is capable of filling the position and that, together with his high sense of honor and fairness, makes him fully suited for the position of secretary.

Hon Thomas R. Reid, of Louisville, Ky., recently of El Reno, Okla., is treasurer of the Cosmos Oil and Refining Company. Mr. Reid is secretary of the Duplex Oil Company and one of the most careful and exacting accountants we have ever known. He knows when a thing is right and can't be satisfied until it is. He is also a well-known attorney and has had years of experience in the Governmental Land Department of Oklahoma.

EXECUTIVE BOARD

This board, composed of J. W. Calkins, Eli Howell and H. H. Hutchinson, assures every stockholder of the Cosmos Oil and Refining Company that, insofar as securing or disposing of properties is concerned, or in development operations, no three men better fitted or better qualified could have been selected. They know values. They know oil property and they know how to protect the best interests of the company. Closely allied to the Executive Board is H. L. James, one of the best land title attorneys of Kentucky. He is counsel of the Cosmos Oil and Refining Company and will at all times give the Executive Board his full co-operation on contracts and all legal affairs of the company.

SUCCESS THROUGH CO-OPERATION

Don't you see how much easier it is for such men as we have selected as officials of the Cosmos Oil and Refining Company to make a big success than for one individual? Because here each man has a special and specific duty to perform, and that, together with their combined efforts, brings success.

Again you could not take \$100 or \$1,000 and start out alone to develop an oil property, for you would not be able to complete the work to a successful stage. But with several such sums and by experienced management we are able to bring the desired results.

OIL MEANS MILLIONS

Never before in the world's history has there been any one line of development which has attracted such a great per cent of the investing public as the oil business of today. The people know that oil pays big returns on the money invested and the people know that they can never accumulate wealth by working. You must invest. You invest where you will reap big returns and right here as a closing word we wish to say to you—

BUY COSMOS OIL AND REFINING CO.

Stock today—our campaign is on. We have already advanced the contract price for the standard rig and derrick for our wonderful Eastland County gusher field of Texas. We will start developing our Kentucky holdings at once. Our entire allotment of stock at fifty cents will be consumed quickly. Act now! Get into a company where every act, every lease, every man connected means success.

OFFICIAL O. K. PLACED ON Y. M. C. A. WATER SUPPLY.

That the water supply used for drinking and bathing purposes at the Bourbon County Y. M. C. A. building is all it should be from a sanitary and healthful standpoint, has been evidenced by the official "O. K." placed on it by a report submitted by Health Officer Dr. A. H. Keller, at the request of Secretary Z. L. Wilcox.

Samples of the water were sent to the chief chemist in charge of the chemical work at the University of Kentucky, with a request for an exhaustive and thorough chemical analysis. As a result of the test made there Dr. Keller forwarded the following letter to Mr. Wilcox:

Mr. Z. L. Wilcox,

Secretary Y. M. C. A.

My Dear Sir:—The result of the examination of a sample of water, sent by you to the University of Kentucky, on June 24, 1919, and at a more recent date, transmitted to me, indicates very distinctly that all reasonable means have been exercised by the governing head of the Y. M. C. A. to safeguard the health of all who may have come under his supervision, so far as a pure and wholesome water was in his power to provide.

It gives me great pleasure to commend the thoroughness with which you have handled all sanitary features connected with the institution.

With cordial best wishes for continued success in your new field of labor, I am,

Very sincerely yours,

(Signed) A. H. KELLER,
Secretary of Board of Health.

RED CROSS HOME SERVICE SEEKING INFORMATION

Anyone knowing Mrs. Mary Coffee, who recently moved to Paris, is asked to confer with the Home Service of the American Red Cross, at the Paris office, Room 505, in the First National Bank building.

The local secretary of the Home Service will also be glad to meet and talk with some one who was a member of the Machine Gun Battalion of the 148th Infantry, Thirty-seventh Division. At the beginning of the world-war, a young man enlisted from Hutchinson, this county, whose given name was "Walter." The Red Cross Home Service at Camp Sherman, Chillicothe, Ohio, is trying to locate him. Any information furnished in regard to either of these parties will be gratefully acknowledged by the Red Cross.

CARPENTERS ORGANIZE UNION.

The first labor union ever organized in Paris was formed here at a meeting of carpenters held in the Masonic Temple. The union is organized under Charter No. 2243, and begins with a membership of forty-three. The following were elected officers: James Hill, president; Carl Snapp, vice-president; Ed. Meyers, treasurer; John Brown, secretary; James Rye, C. A. Buchanan and Granville Hill, trustees. The union will hold regular meetings weekly.

MATRIMONIAL.

—A marriage license was issued Tuesday from the office of County Clerk Pearce Paton to Mr. Harry Barlow and Miss Virginia Davis, both of Paris.

—A marriage license was issued Tuesday from the office of the County Clerk of Hamilton county, at Cincinnati, to Mr. Herman Faulkner, of Cynthiana, and Miss Willie Jett, of Cincinnati. Miss Jett is a daughter of Mr. and Mrs. Otto Jet, formerly of Bourbon county.

WILLIAMS—EDWARDS.

—Otis Edwards, 24, farmer of Nicholas county, and Miss Maggie Williams, 22, of Bourbon county, secured marriage license in Lexington, Wednesday, and were married by Magistrate Miner, in his private office.

DAVIS—BARLOW.

—The marriage of Mr. Harry Barlow and Miss Virginia Davis, both well-known and popular young people of this city, was solemnized in Louisville yesterday. After the ceremony Mr. and Mrs. Barlow left for a honeymoon trip, and on their return will reside in this city.

The bride is a daughter of Mrs. Lillian Davis of Paris, and is very handsome and attractive young woman, who has made many warm friends by her charming manner and unfailing courtesy. For some time she was engaged in the millinery store of Mrs. Mayme Parker, but in the past few months has been a member of the sales force at the dry goods store of Mr. W. Ed. Tucker, where she was highly esteemed by her employer and her associates.

The groom, who has lately returned from service in Uncle Sam's overseas army, is a son of Mr. and Mrs. Herman Barlow, Sr., of Tenth street, and is a member of the office force of Superintendent J. A. Morrison, at the Louisville & Nashville Tenth street station. He is a young man of integrity and industry, and a worthy husband of the fair young woman who has become his wife.

THE NEWS extends congratulations and best wishes to the young couple, who start in life with the fairest prospects.

ARTILLERY RECRUITING CORPS GOES TO CYNTHIANA

After a three-days' stay in Paris, during which they secured one lone recruit, the detachment of the 83rd Artillery broke camp Tuesday afternoon and departed for Cynthiana, on a recruiting expedition, going from there to Falmouth.

The detachment, comprising six officers and fifty-three privates with their equipment, presented a war-like appearance, as they proceeded up Main street, Cynthiana-bound. They praised very highly their reception and treatment by the Paris people, and requested THE NEWS to extend their earnest heartfelt thanks to the people of Paris for the many courtesies extended them during their stay.

BIBLE SCHOOL AND CHURCH CONVENTION YESTERDAY.

The annual convention of the Bible Schools of the Christian churches of Bourbon county was held in the Christian church at Clintonville yesterday, with the president, Rev. Ward Russell, pastor of the Little Rock Christian church, presiding.

The pastors of the various churches and the superintendents of the Bible schools throughout the county were in attendance, and there was a large delegation of visitors and delegates, all of whom thoroughly enjoyed the proceedings. Twenty-minute addresses by the speakers from different parts of the county formed the principal features of an interesting program.

At noon following the morning session an adjournment was taken, when a basket dinner was served on the grounds by the ladies of Clintonville and vicinity. The following is the program observed at the all-day session:

HOME TELEPHONE BUILDING NEW FRANKFORT TOLL LINE

We are advised by Mr. J. J. Veatch, District Manager of the Central Home Telephone and Telegraph Company, that his company is now busily engaged building a new No. 10 copper toll line from Paris to Frankfort.

This work was commenced on the Paris end and a large force of plant men are now working out of Paris on the Georgetown pike. This will be a through line for the purpose of establishing a more direct connection with Frankfort and points west of Frankfort, and will tend to relieve congested traffic which at the present time is routed through Lexington. The telephone business, like all other lines in this part of the State show a steady increase each year and therefore, necessitating additional and better facilities for handling same.

This line is expected to be completed and thrown open to the public by December 1st, this year.

MONTGOMERY COUNTY HOME DESTROYED BY FIRE

The residence occupied by Alvin Morton and family, on the farm of James Hoskins, about one and a half miles from Mt. Sterling, on the Levee pike, was burned Tuesday morning. An oil stove in the kitchen had leaked onto the floor, and a member of the family starting to get breakfast, dropped a lighted match. The entire structure was soon in flames. Nothing was saved, and there was very little insurance on the residence or the household goods.

Mrs. Guy U. Hardy, Canon City, Col., sponsored the big boat. Mrs. Hardy is the wife of Representative Hardy, who is president of the Editorial Association.

The Editor is a 9,600-ton freighter.

REAL ESTATE TRANSACTIONS.

Mr. David Johnson, Wednesday, sold his farm of 87½ acres, located on the Allen and Offutt pike, nine miles from Paris, for \$200 per acre. The name of the purchaser was not given.

One of the biggest land deals made for some time by Cynthiana dealers was the sale by Garrett & Robertson of the Wm. H. Whaley farm of 304 acres, located near Ewalt's Cross Roads, in this county. The place was purchased by Mr. Henry L. Hanson, of near Cynthiana. The price paid was not made public, but is said to have been close to \$90,000.

The five-room cottage on High street, between Fifteenth and Sixteenth streets, belonging to Mr. John Hall, was sold Tuesday, through the real estate firm of Harris & Speakes, to Mr. Claude C. Larkin, for \$2,200.

Mrs. Jacob Elvove purchased of Mr. and Mrs. E. L. Ellis of Harrodsburg, a four-room cottage on Virginia avenue, for \$800.

The Central Methodist, published in Louisville, says: "A new office has been added, that of Vice President, and the new officer is Miss Sara Power, of the Kentucky Conference. Her charming personality and deep consecration makes her a welcome addition to the executive force."

WORK BEGUN ON NEW STREET RECONSTRUCTION

A force of workmen, under the supervision of Superintendent of Streets Stegall, and City Engineer Boehrner and assistants, began yesterday the work of resurfacing Main street, at Main and Tenth streets, to continue to South Main. When this is finished the work will begin on Pleasant street.

The steam roller and other necessary equipment for carrying on the reconstruction work has arrived, and is being used in the work, which it is expected will be completed in the early part of November. At a special meeting of the City Council City Engineer was given full authority to supervise the work.

KIDNEYS WEAKENING?

LOOK OUT!

Kidney troubles don't disappear of themselves. They grow slowly but steadily, undermining health with deadly certainty, until you fall a victim to incurable disease.

See your trouble while there is time. Don't wait until little pains become big aches. Don't trifle with disease. To avoid future suffering begin treatment with GOLD MEDAL Haarlem Oil Capsules now. Take three or four every day until you are entirely free from pain.

This well-known preparation has been one of the national remedies of Holland for centuries. In 1696 the government of the Netherlands granted a special charter authorizing its preparation and sale.

THE DOLLAR NOW AND THEN.

The saying has come up from the dark ages that the way to make money is to buy cheap and sell dear.

As the Government of the United States is pointing out to its citizens one way to do this is to buy standard securities when general prices are high and hold them for redemption when prices are lower. W. S. S. posters urge investors to use the present "low power" dollar to buy government securities and to receive in redemption at a later period "high power" dollars.

Here is how it works:

Before the war you earned, say \$3.00 a day. Now you can earn, say,

\$5.00 for doing the same work. But you can't buy any more with your five dollars than you could with your three dollars—other prices have gone up in proportion to the price of your labor.

If, some years after the war is over, prices and wages decrease somewhat you may, for example, be earning and spending \$4.00 per day. Your War Savings Stamps become due and the Government gives you back your \$83, or the then value of nearly 21 days' labor, plus your \$17 interest. In terms of days' labor the Government is giving back four days more than it received from you, besides your \$17 interest. This changing value of the dollar has made many persons richer and others poorer without their knowing exactly how it happened. Now is the chance to join the class of those who are going to be made richer, and one safe way to join is by buying the convenient government security—the War Savings Stamps.

RED CROSS MOTOR SERVICE
WON'T DEMOBILIZE.

Red Cross motor service which "carried on" in England during the war will not hear the order to demobilize. The British Red Cross has a plan whereby the entire country will be divided into sections with no place more than 15 miles from a motor ambulance. Five hundred of these ambulances so familiar to any of the Americans who were in Boulogne during the war are now being housed in stations throughout the kingdom.

Control of the system will be under a commissioner and central office, which will guarantee the efficiency of the car service.

Ambulances which are too worn out or not adapted for this phase of peace work are being added to the enormous number of cars and motorcycles, now being sold or scrapped.

This is just one instance of how the Red Cross is adapting its service to the peace time needs of the world. In a recent letter to D. C. Dougherty, Acting Manager of the organization in Ohio, Indiana and Kentucky, F. C. Monroe, General Manager at National Headquarters, Washington, D. C., writes of the future of the Red Cross chapters, saying:

"If we embrace the opportunity that lies open to us now, the work that we did during the war, great as it was, will pale into insignificance when compared with the lasting effects of our work in the future."

A TRAVELING MAN'S EXPERIENCE

You may learn something from the following by W. H. Ireland, a traveling salesman of Louisville, Ky. "In the summer of 1888 I had a severe attack of cholera morbus. I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic and Diarrhoea Remedy and to take no substitute. I took a double dose of it according to the directions and went to sleep. At five o'clock the next morning I was called by my order and took a train for my next stopping place, a well man."

ENORMOUS COST OF WORLD WAR

LONDON, August 19.—The war cost forty billion pounds (\$250,000,000,000), Premier Lloyd George declared in his speech in the House of Commons Monday, on the financial and industrial situation. Most of this sum was spent for purposes of destruction.

He asserted that the change from war to peace conditions would take just as long as the change from peace to war.

The first outstanding fact of the present situation was the alarming adverse trade balance, he said.

The important restrictions, which will terminate September 1, he continued, had given British manufacturers an opportunity of making a dealing in goods which otherwise would have been hurried here from foreign countries.

The national debt, he declared, had grown from \$3,205,000,000 to \$39,000,000,000.

COVINGTON THINKS LIQUOR BAN
WILL BE LIFTED SOON.

A Covington dispatch states that official information has been received there from the office of the Commissioner of Internal Revenue to the effect that, in the event wartime prohibition is terminated, spirits represented by warehouse receipts now purchased for export, may be tax paid for beverage or other domestic purposes. At the Lexington revenue office it was said that no instructions as to the question involved had yet been received.

Receipts intended for exportation to other countries are said to represent a vast quantity of whisky, of which eight and a quarter million gallons yet remain in warehouses of this district. Under the ruling set out, much of this would be delivered to domestic channels to the profit of the owners. Covington distillers and dealers believe that the ban will be lifted in the not distant future.

TIES FISH LINE TO TOE; HAS
TROUT IN MORNING.

Donald F. Whipple, of Watertown, New York, thinks so much of fishing that he must do it while he sleeps. He had such great luck fishing for trout at Sandy pond that he refused to quit when the lights out was sounded. He went to bed, tied a line with a well-baited hook on it around his big toe and tossed the line out of the window.

Early in the morning there was a tug. He had hooked a four pound trout, which was served for breakfast.

SCHOOL CHILDREN TO GET HAND GRENADE SAVINGS BANKS.

Banks of the Kentucky Federal Reserve District are sending in rush orders for the hand grenade banks which the War Savings Organization Division is soon to distribute through the banks to the school children of Kentucky.

Under the scheme adopted by the Kentucky banks they will "lend" a grenade bank to any child under seventeen years old who applies for it. To secure ownership of the grenade bank the child will be required to earn enough money to purchase one War Savings Stamp, and take the money to the institution where the grenade bank was secured and buy a War Savings Stamp there.

The children will be allowed the entire Summer to do the work and they will be required to surrender the grenade bank unless they purchase a War Savings Stamp before October 1. This plan has made it possible to allow the child the use of the grenade bank to save his pennies and dimes, while he is accumulating enough to buy his War Savings Stamps.

After the re-opening of school and after all the qualified children have been supplied, the hand grenades will be given to persons over seventeen years who purchase three or more War Savings Stamps.

The hand grenades which are the highest development of the time-honored weapon, are transformed into thrift agencies by the simple process of clearing out the explosive chamber, cutting a slot through shrapnel casting, which is the body of the grenade, and substituting a removable screw for the base of the casting.

The grenade bank will hold 100 pennies or 100 dimes. With the exception of these changes the grenade remains in the exact form designated for their original purpose. Across the face of the grenade bank appear the words, "Buy W. S. S."

AN OLD FAULT FINDER.

An irritable and fault finding disposition is often caused by indigestion. A man with good digestion and bowels that act regularly is usually good natured. When troubled with indigestion or constipation take Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.

TAKE A VACATION

A vacation always helps the man or woman who has been busy over a long period. The farmer and his good wife have been even busier than usual this year. They both need and deserve a rest and a change now that at last a portion of the heavy rush work is over for this season.

The State Fair will afford the farmer, his helpmate and his family a vacation which will rest them and at the same time educate them in a broad, liberal way. The farmer should take this vacation both because he and his family must do more and better work during the next twelve months to help keep the world well-fed and also because he has the money. In fact the farmer ought to consider his visit to the State Fair this year both a duty and a pleasant vacation at the same time.

The Buick Model K-Six-44

Buick Three-Passenger Roadster

THE BUICK Model K-Six-44 possesses marked advantages for the man or woman who wishes a car of limited passenger capacity, with an exceptionally roomy and comfortable driving compartment. This three-passenger model makes the most of these desirable features, without sacrificing one whit of the modish appearance that belongs to the type.

The body is distinctly a Buick creation, broadening out to accommodate a wide, deep seat for three, then curving in at the back to form a trim rear deck with a weatherproof carrying space for luggage.

The dimensions of the driving compartment insure easy entrance or exit from either side, with the control and brake levers well forward but within easy reach. The French pleated upholstery is built for long wear and comfort.

Inclined windshield, handsome improved top of high grade material, side curtains that swing open with the doors.

JOHN ROBINSON'S CIRCUS

Is Coming In All Its Glory With Many New Novel and Sensational Features.

Fresh from winter quarters, bright and glittering with gold leaf and vari-hued paints, teeming with hundreds of new and novel features, John Robinson's Circus, the largest, oldest and best in the whole world, will give a wonderful parade and two performances in Winchester, Friday, Aug. 29, and Lexington, Saturday, Aug. 30.

This season marks the 95th for this remarkable tented organization, one that is now being managed by the head of the third generation of the family bearing a name that is a household word from coast to coast.

John Robinson, the First, originated the first traveling tented show in the United States in 1824 and the organization has been continuously operated ever since. Old John Robinson died in Cincinnati, O., shortly after the close of the Civil War and the management of the show, then a small affair, pulled from place to place in wagons, devolved upon the oldest son of the owner, John the Second. The latter modernized the organization and was the first showman to use the railroads for transportation and to light his tents with electricity.

Year by year the circus grew in every department until it became the largest and best in existence. Several years ago John the Second retired from active life and the show passed to the leadership of John G. Robinson, a grandson of the founder, and a man well known to numerous residents in this vicinity.

This season the circus has four long railroad trains, five hundred horses, 1,427 employees, three hundred famous arena artists, a remarkable menagerie including "Congo," a baby Hippopotamus and a herd of twenty-five elephants.
